

Advantage Refreshments

The Premier leader in Vending

Does your breakroom offer a vending experience like this?

How would options like these improve employee morale at your business?

Introducing Advantage Refreshments **NEW** locker vending system. Our system is designed to offer your employees the convenience of traditional vending items alongside larger, customizable lockers to give your employees what they want AND need - all at ZERO cost to you!

Employee Complaints

Ever see these on your vending machines?

Nothing is more frustrating for your employees than when they go to the breakroom to get a cold drink or snack and the vending machine takes their money and does not dispense the product.

Your employees will never have this happen again when you choose Advantage Refreshments.

With Advantage Refreshments you will receive brand new smart vending machines equipped with iVend technology. This software is guaranteed to give your employees their product 100% of the time or they get a 100% refund on the spot.

Can you break a \$5? Anyone got a quarter?

With our vending machines your employees will no longer have to interrupt their coworkers to break a bill or scour their desks (or cars) to find loose change. All of our machines come equipped with Greenlite cashless payment. This technology allows our vending machine to accept credit, debit and mobile payments.
